

PEOPLE OF IRELAND – WAKE UP!

The time has come to save our country from:

- Bankruptcy
- Incompetent Politicians
- Unelected Corrupt bought & paid for Government advisors
- Societal Collapse
- Mental Health Epidemic

"The world will not be destroyed by those who do evil, but by those who watch them without doing anything."
– Albert Einstein

It is time to take back our individual Constitutional rights that are being eroded by this government

Covid 19 is a real & deadly virus and every single death or illness is a personal tragedy.

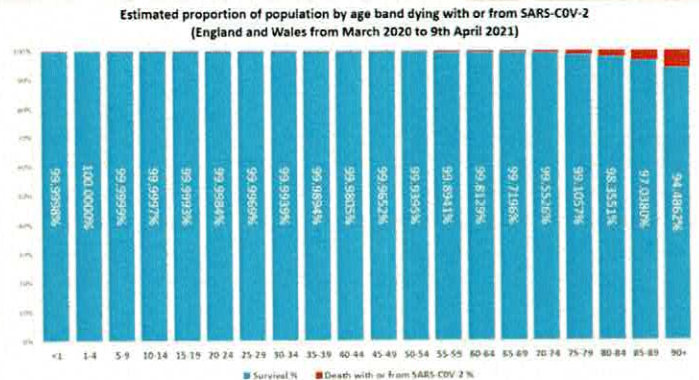

"IT IS NOT TO POLITICAL LEADERS OUR PEOPLE MUST LOOK, BUT TO **THEMSELVES**. LEADERS ARE BUT INDIVIDUALS, AND INDIVIDUALS ARE IMPERFECT, LIABLE TO ERROR AND WEAKNESS. THE **STRENGTH OF THE NATION** WILL BE THE STRENGTH OF THE SPIRIT OF THE **WHOLE PEOPLE**."

GENERAL MICHAEL COLLINS,
(1890 – 1922)

However, deaths from cancers, heart disease, suicides, etc are also personal tragedies & these are being completely ignored by our government & the Irish media

Ireland has an **EXCESS OF 98% RECOVERY RATE** from Covid for **ALL AGES** that contracted the Virus. Ireland's Covid contraction rate is **less than 5%** of Ireland's population.

Since Ireland has an excess of 98% recovery rate from Covid, why is Covid being used to:

- Destroy our society
- Remove our personal freedoms & rights
- Destroy our children’s future
- Have people living in constant fear & anxiety?

€134m PER WEEK is being spent on PUP Payments. This is preventing people from working. This is almost **3 times the annual Government spend on mental health which has a budget of €50m**

Ireland could have built multiple temporary Modular built Covid wards at every hospital in the country & staffed them with €134m per Week. Yet our government only added less than 75 critical care beds to the entire health service⁽²²⁾ in 2020 for the whole of the Rep. of Ireland even though they predicted a 2nd wave.

THE ECONOMY

Question) Who is going to pay for this government borrowing?

Answer) THE WORKING CLASS

Minister for Finance, Paschal Donohoe has already said taxes will have to be raised in 2022.

VAT has already being increased from 21% to 23%.

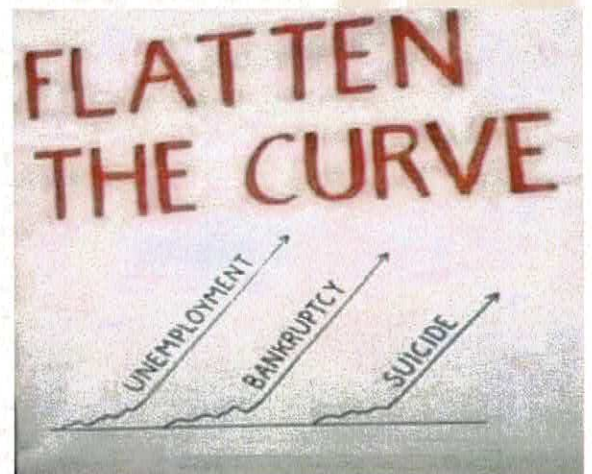

People currently on the forced PUP payments **will receive a large tax bill once back at work**

Sectors of the economy destroyed such as the service sector & tourism – small shops, pubs, restaurants, etc – how much longer can their businesses financially survive while being forced to close by government?

Should the phrase “FLATTEN THE CURVE” really relate to rising unemployment numbers, rising bankruptcies, rising suicide numbers, & the mental health epidemic?

Epidemiologists from **Oxford, Harvard and Stanford Universities** have proposed an alternative to lockdowns which has been supported by hundreds of experts worldwide. ⁽³¹⁾ This alternative focuses **protection of the vulnerable while allowing the majority to sustain the economy and build herd immunity.**

Why is our government & other European governments ignoring this advice & destroying our economies & our lives with lockdowns?

PERSONAL CONSTITUTIONAL RIGHTS BEING ERODED

Freedom of travel is guaranteed – yet we are limited to within 5Km of home

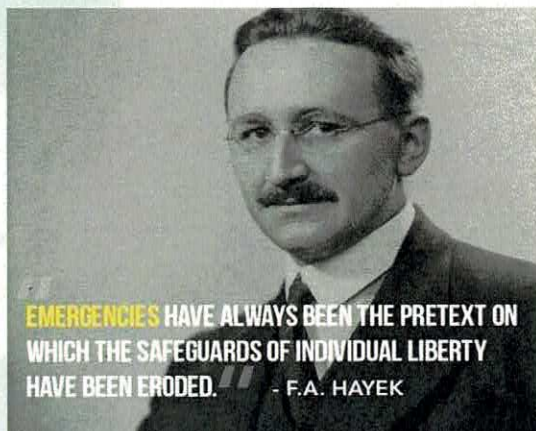

Freedom to work – yet large sectors of economy forced to close

Right to freedom of expression – yet our government wants Facebook & other social media & tech companies to censor content relating to questioning Covid, questioning the lockdowns or organising protests against the lockdowns

Guarantee of education – yet most schools in the country have been closed for almost 6 months since March 2020.

Most children & teachers have struggled with on-line teaching during lockdown especially national schools' children & secondary school children from deprived backgrounds.

- **Merck**
- **Johnson & Johnson**

The BMGF was the largest funder to the WHO (World Health Organisation) after the USA pulled its funding in June 2020.

Imperial College London has received millions of Dollars in funding since 2010 from the BMGF⁽²⁾. The analytical models by Professor Neil Ferguson of Imperial College London predicted a Covid death rate in UK in excess of 500,000 in 2020 & 2021⁽³⁾ & this was the reason justified to enter UK into lockdown.

Professor Ferguson had very similar inaccurate analytical models of UK death numbers for the H1N1 (Swine Flu) & MERS epidemics in the past decade. Professor Ferguson also received major donations from large pharma companies.⁽³⁷⁾

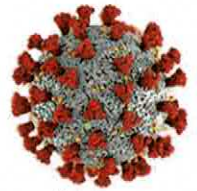

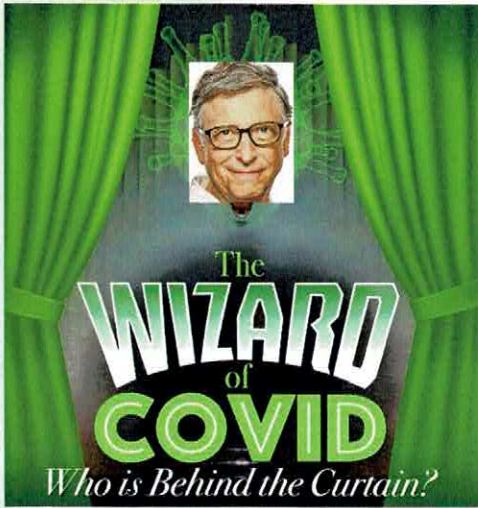

SERIOUS CONFLICT OF INTEREST

Bill Gates owns shares in the pharma companies as highlighted above. Coronavirus disease (COVID-19): Serology

9 June 2020 | Q&A

What is herd immunity?

Herd immunity is the indirect protection from an infectious disease that happens when a population is immune either through vaccination or immunity developed through previous infection. This means that even people who haven't been infected, or in whom an infection hasn't triggered an immune response, they are protected because people around them who are immune can act as buffers between them and an infected person. The threshold for establishing herd immunity for COVID-19 is not yet clear.

What is herd immunity?

'Herd immunity', also known as 'population immunity', is a concept used for vaccination, in which a population can be protected from a certain virus if a threshold of vaccination is reached.

Herd immunity is achieved by protecting people from a virus, not by exposing them to it. Read the Director-General's 12 October media briefing speech for more detail.

This is in comparison for £24 in The UK for the two vaccine doses. Rip off Ireland again & taxpayers Are paying for this.

Why would doctors question the official story in Ireland when they are making so much money?

Nphet warns vaccines will offer 'limited protection'

THE expert group on Covid-19 has warned vaccines will offer "limited protection" against the virus now and in the summer unless case numbers drop to "very low levels".

Newly published minutes from a National Public Health Emergency Team (Nphet) meeting also warn that a surge in Covid-19 cases would be "devastating" to the vaccine programme and could delay its roll-out. The minutes of a February 18 meeting, published on Friday, warn that even vaccine optimism, with fears of a fresh Covid-19 surge across Europe and case numbers in Ireland remaining in excess of 500. Nphet reported 525 confirmed cases of the virus last night.

The minutes said it was too early to predict what the full impact of vaccines would be and that it would be "dangerous" to assume restrictions could be eased once all eligible members of society are vaccinated.

waiting of the growing evidence of the "devastating health effects" linked to long Covid.

EUROPE is on the cusp of a fresh onslaught of Covid-19. France is about to go into a month-long lockdown after a spike in new infections. Germany has recorded "exponential growth" and tomorrow will consider extending its lockdown and reversing plans to re-open the economy. New case numbers globally rose by 14pc in the past week, according to the World Health Organisation.

In Ireland, case numbers are hovering stubbornly on the wrong side of the 500 mark.

Newly released minutes from the National Public Health Emergency Team (Nphet) add to the gloomy outlook by dampening the prospect of the vaccine leading to an easing of lockdown by the summer.

Minutes of a meeting held last Thursday show that, even as vaccine

The different nature of the masks and shields makes the direction of these jets difficult to be predicted, but the directionality of these jets should be a main design consideration for these covers. They all showed an intense backward jet for heavy breathing and coughing conditions. It is important to be aware of this jet, to avoid a false sense of security that may arise when standing to the side of, or behind, a person wearing a surgical, or handmade mask, or shield."

Masks

In November 2020, a Danish study ⁽¹³⁾ (which the governments of Europe have chosen to completely ignore) of over 6000 people by the Copenhagen University Hospital stated that:

- face masks may only offer the wearer limited protection against COVID-19 infection.
- Researchers found there was no statistically significant difference in the number of people who contacted the virus in a group wearing masks in public compared to a group that did not do so.

This has been further backed up by a recent study by Stanford University which stated: “**The data suggest that both medical and non-medical facemasks are ineffective to block human-to-human transmission of viral and infectious disease such SARS-CoV-2 and COVID-19, supporting against the usage of facemasks**”. ⁽⁶¹⁾

If masks are so effective, why have we had such rises in cases since they have been mandated indoors in public spaces since November 2020?

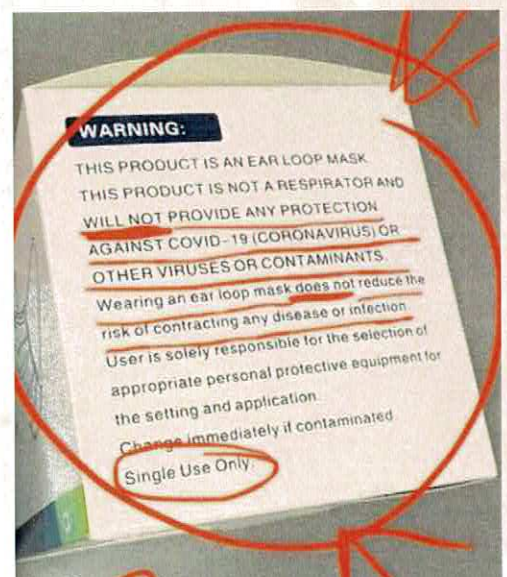

Most people wear cloth masks, snoods or disposable surgical masks. These are not designed to prevent the escape of vapour molecules or protect you against Covid 19 and they are also only designed for single use – not repeat use.

Surgeons dispose of their surgical masks after each use. The general public are mostly re-using masks on a regular basis. These masks will collect dirt and dust particles & contaminants which are then being inhaled by the individual which is not healthy

Understanding the Difference

Surgical Mask

N95 Respirator

Testing and Approval	Cleared by the U.S. Food and Drug Administration (FDA)	Evaluated, tested, and approved by NIOSH as per the requirements in 42 CFR Part 84
Intended Use and Purpose	Fluid resistant and provides the wearer protection against large droplets, splashes, or sprays of bodily or other hazardous fluids. Protects the patient from the wearer's respiratory emissions.	Reduces wearer's exposure to particles including small particle aerosols and large droplets (only non-oil aerosols).
Face Seal Fit	Loose-fitting	Tight-fitting
Fit Testing Requirement	No	Yes
User Seal Check Requirement	No	Yes. Required each time the respirator is donned (put on)
Filtration	Does NOT provide the wearer with a reliable level of protection from inhaling smaller airborne particles and is not considered respiratory protection	Filters out at least 95% of airborne particles including large and small particles
Leakage	Leakage occurs around the edge of the mask when user inhales	When properly fitted and donned, minimal leakage occurs around edges of the respirator when user inhales
Use Limitations	Disposable. Discard after each patient encounter.	Ideally should be discarded after each patient encounter and after aerosol-generating procedures. It should also be discarded when it becomes damaged or deformed; no longer forms an effective seal to the face; becomes wet or visibly dirty; breathing becomes difficult; or if it becomes contaminated with blood, respiratory or nasal secretions, or other bodily fluids from patients.

Covid Case Numbers – The PCR Test Fraud

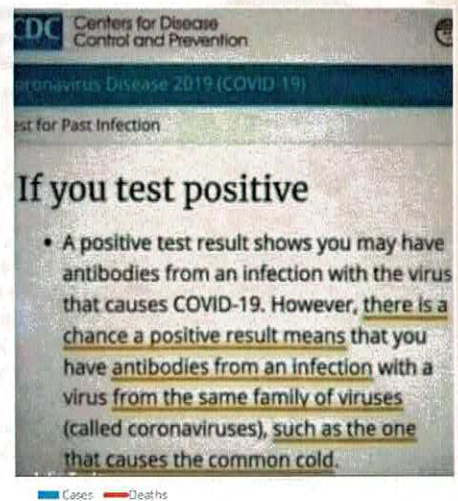

Ireland's whole approach to Covid has been based on the Number of positive Covid PCR Tests.

The PCR test which was developed by a Nobel Prize winner in Chemistry Kary Mullis & he stated that the PCR test **“was never designed to diagnose diseases”** and that **“It doesn't tell you that you are sick”**.

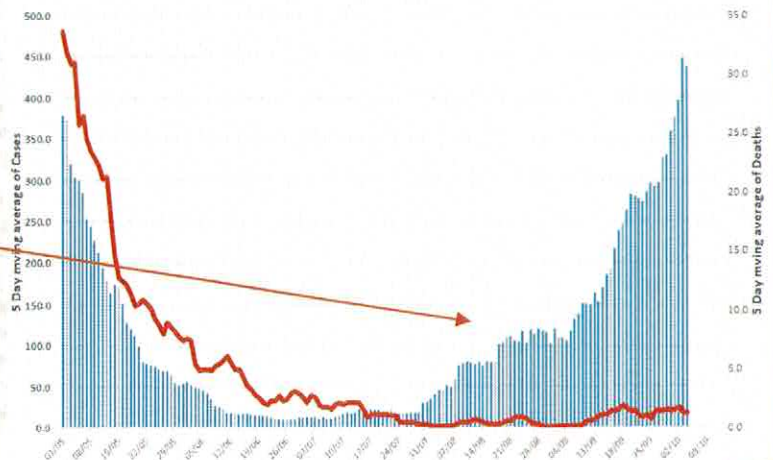

The common swab test (PCR test) does not detect a living, infectious and transmissible virus, only fragments of its genetic material which can remain in the body from a past dead infection. ⁽¹⁴⁾

On 14th December 2020, the **World Health Organisation** (WHO) admitted that the PCR test was not fit for purpose and that “many cycles were required to detect virus. In some circumstances, the distinction between background noise and actual presence of the target virus is difficult to ascertain.” ⁽¹⁷⁾ The WHO also stated that “PCR tests are only an **aid** for diagnosis⁽¹⁶⁾. **People who do not present symptoms should now be retested as a positive result alone does not confirm infection.**” ⁽¹⁴⁾

From August 2020, notice the spike in “positive cases”. This was due to increased numbers of people being tested & it did not result in additional deaths. Similar is happening now in April 2021. This **FRAUD** is being used to prolong the current lockdown

In November 2020, in a **Portuguese Court Case**⁽¹⁶⁾ it was ruled that “a single positive PCR test **cannot** be used as an effective diagnosis of infection”. The ruling goes on to conclude that, based on the science they read, any PCR test using over **25 cycles** is totally unreliable. America's Anthony Fauci has publicly stated “anything over 35 is totally **UNUSABLE**.”⁽¹⁷⁾

Irish government paid test houses are using **35-45 cycles**. **THIS IS FRAUD!!**

Boris Johnston when questioned about mandatory testing at UK airports stated that the PCR tests led to a very high amount of “false positives with a rate of as high as 93%”

People received positive Covid PCR test results even though they did not take a test. This was highlighted on 4FM’s Niall Boylan Radio Show. Again, **this is fraud** by our government.

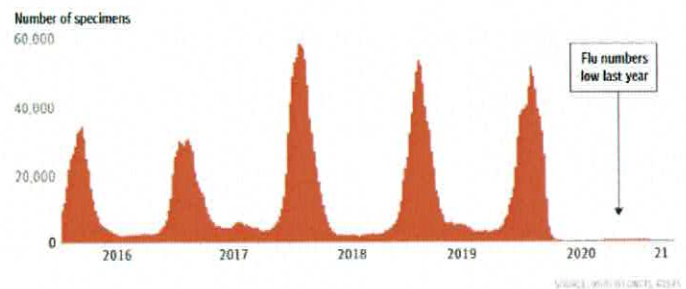

In March 2021, Ireland is now mandating mandatory hotel detention if the traveller does have a negative PCR test result. Iceland’s court have ruled that mandatory hotel quarantine “lacks legal basis”⁽⁵⁹⁾ and there has already been successful court cases taken against the Irish Government illegal mandatory hotel quarantine.⁽⁶⁰⁾

Are we going to stand by & allow this to happen & let our government take away our constitutional right to freedom of movement?

Preliminary investigations conducted by the Chinese authorities have found no clear evidence of human-to-human transmission of the novel #coronavirus (2019-nCoV) identified in #Wuhan, #China.

**CORONAVIRUS
(2019-nCoV)**

One of the main reasons used by government to keep the lockdowns going was to protect the elderly & the vulnerable against the spread of Asymptomatic Transmission.

Yet the WHO (World health Organisation) said in June 2020 that asymptomatic spread of coronavirus is "very rare". (18)

"Evidence of asymptomatic spread is insufficient to justify mass testing for Covid-19" from the British Medical Journal (19)

A study of 10 million Wuhan citizens showed very 300 cases of asymptomatic spread. That is 0.003%.

"evidence suggests that about one in five infected people will experience no symptoms, and they will transmit the virus to significantly fewer people than someone with symptoms. But researchers are divided about whether asymptomatic infections are acting as a 'silent driver' of the pandemic" – Nature.com Journals (20)

If researchers are divided on their opinion, why has our government only taken one side of this debate as gospel & ignoring the other side of the debate?

Ireland's Numbers of Total Deaths

Please bear in mind in the Rep. of Ireland there is an average of **85 deaths per day** from all causes.

Figure 3 Comparing Mortality with Previous Years, 2014/15 – 2019/20

Diagram is from CSO Website

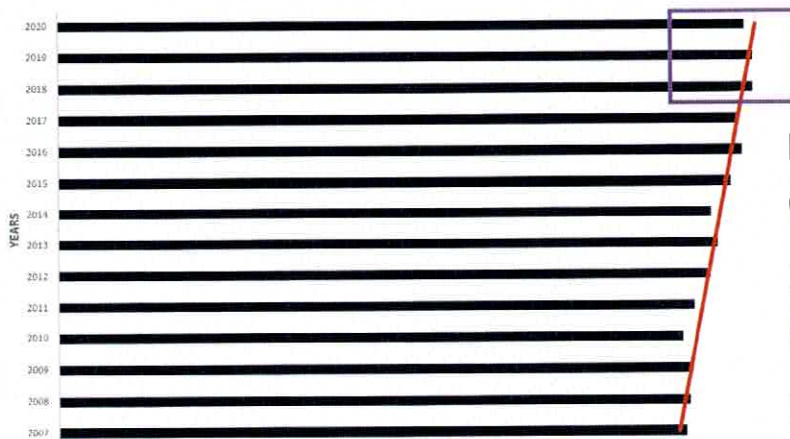

<https://www.cso.ie/en/releasesandpublications/fb/b-mpds/measuringmortalityusingpublicdatasources2019-2020/>

Except for the months of March & April 2020 – total deaths for period Oct 2019 – Oct 2020 are average or below average total death numbers compared with death number for the past 6 years.

The death number peaks of March & April 2020 which were Covid related death peaks are almost identical to death number peaks in December & January of 2016-2017 and 2017-2018 winter flu seasons but had no lockdown!!

IRELAND - NUMBER OF DEATHS 2007 - 2020

Deaths in 2020 was below expected trendline

Deaths in Ireland in 2018 = 31140 (No Covid)

Deaths in Ireland in 2019 = 31134 (No Covid)

As of 29th January 2021, from the Irish CSO Ireland had **zero deaths** under the age of 24 from Covid.
Therefore, why is our government destroying the lives of our children & young adults?

Ireland's Numbers of Total Deaths (continued)

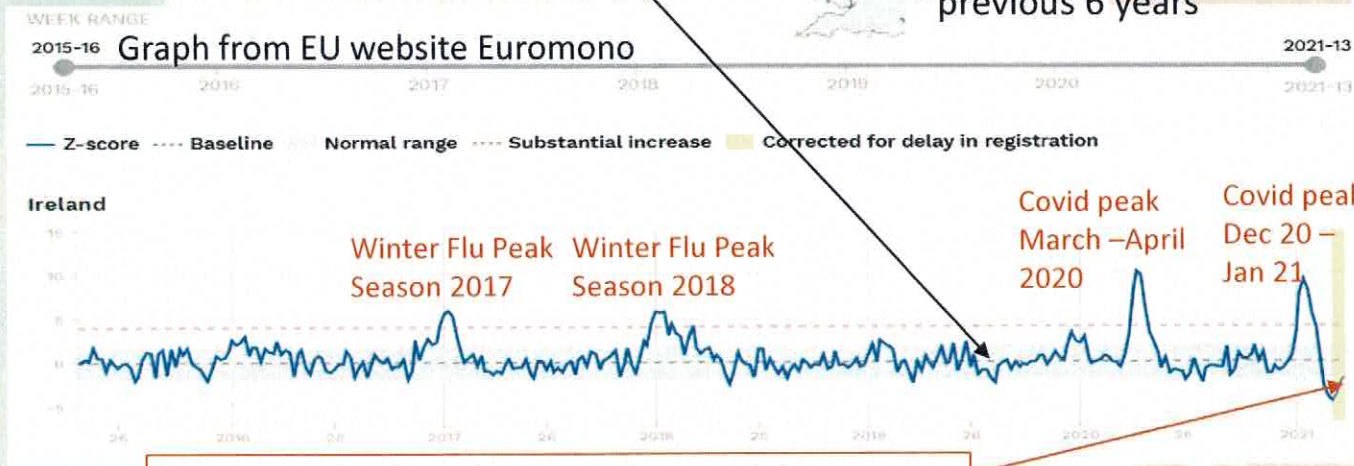

Deaths in 2020 was below expected trendline

Black Dotted Base Line is the 5- year average number of deaths throughout the year

EU website Euromono for Feb/March 2021 Ireland has no excess deaths compared with previous 6 years

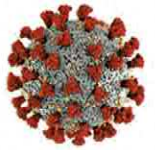

Currently total number of Irish deaths is well below average

As can be seen there was a short but very large peaks of deaths in April 2020 & January 2021 due to Covid but there were peaks in 2017 & 2018 that the peaks were not as high but their durations lasted much longer due to winter flu season – Therefore, similar number of deaths per winter season. For the bulk of 2020 the total number of deaths in Ireland is well below the five year average.

Also, with strict lockdowns & mask mandate the peak death increase versus the average annual baseline in 2021 is very similar to 2020. This proves lockdowns & masks have not worked & all they have done is destroyed our economy & our society.

How comes in **“2020 - PANDEMIC YEAR”** Ireland has **LESS DEATHS COMPARED WITH TWO PREVIOUS YEARS**, has shut down & destroyed our country economically & more importantly socially for a virus that has a 98% recovery rate?

Ireland's Numbers of Total Deaths (continued)

10th March 2021 (During 3rd Lockdown)

In 2 winter seasons Ireland has approx. 4500 total Covid related deaths

From 223,957 cases⁽⁵³⁾ on 10th March 2021 which is Less than 2% fatality rate for all ages. **Ireland's population is 4.9 million, this means that 4.5% of whole country got the virus, of which 0.091% of the whole population died in 2 winter seasons!!**

Coronavirus Cases:

223,957

Deaths:

4,452

Note, the total number of cases shown includes the large number of false positives as previously mentioned.

Also, the counting of Covid related Deaths are deaths for any reason after 14 days of positive PCR test. In the UK it is 28 days.

This includes deaths resulting from car crashes, people with terminal cancer, etc if the person had a previous positive PCR Test.

Covid is often compared against The Spanish Flu which had a death rate of **2.5% of the total world's population in 1919**. Covid as of 15th March 2021 has **less than 0.03% death rate of total world's population**

20 -49	0.0002%	99.998%
50 -69	0.005%	99.5%
70 +	0.054%	94.6%

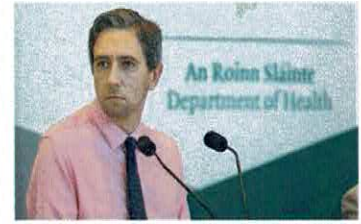

Based on CDC (Centre for Disease Control) in USA information above, below 70 years of ages there is greater than 99.5% recovery rate & below 50 years of age it is 99.98%.

Therefore, if we protect the elderly & vulnerable with a vaccines, why is there no plan to fully open up the country when the risk to those under 70 years of ages is minimal?

On **2th February 2021** which was the peak of the 3rd Covid wave in terms of deaths, there were **484 number available beds** in the country, which **38 number** were free acute adult beds & **6 number** paediatric beds.

All of the above is still in a pandemic despite government adding less than 75 critical care beds⁽²²⁾ for the whole of Ireland in a pandemic year.

Ireland's Health Care Workers – Have **ALWAYS** been **HEROS!!**

The health care professionals are people who should rightly be held in the highest of esteem by the Irish People but not just because of Covid but because **the work the do all the time both now & in the past.**

The HSE has neglected & maltreated our health system & healthcare workers for years.

The HSE has been in crisis after crisis for years before Covid, from the hospital bed trolley crisis (which has disappeared during Covid) to the Cervical Screening Scandal.

There has been under investment in staff numbers & hospital bed numbers especially critical care beds for years considering our population has steadily increased.

NEARLY 14,000 Irish-qualified nurses and midwives have left Ireland for other health services since 2010 as morale within the sector has been described as one of "dejection".

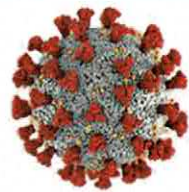

The figure was derived by the number of certificates of verification handed to nurses and midwives. This is a document which is given to foreign healthcare providers to prove they have received the appropriate qualification.

Ireland won't be fined over 24-hour shifts for junior doctors

The European Court of Justice said there was not enough evidence put forward to show the Working Time Directive was not being implemented

Updated at 8pm

THE EUROPEAN COURT of Justice has rejected a bid to have Ireland fined over the long hours worked by junior doctors.

The European Commission had claimed the Department of Health was in breach of the Working Time Directive by asking the non consultant hospital doctors (NCHDs), or junior doctors, to work 24 hour shifts.

However the court today said there was not enough evidence put forward to show the directive was not implemented. It also said arguments had been made which explained irregular shifts are sometimes necessary to keep staffing levels within standards at all times.

The court recognised that training time does not constitute working time as the doctor is not available for work purposes.

So why is RTE only now giving air time to the hero doctors & nurses working 60 – 80 hours a week during Covid when the maltreatment of our health service & our Healthcare workers by our government and the HSE has been going on for years?

Is the real reason that the HSE are so short on staff numbers currently because healthcare workers are being deemed “close contacts”?

Most of these staff had no symptoms & were forced to stay off work.

Then the HSE changed the policy & called back in “close contact” health care workers into work

The Vaccines & The Pharma Companies

As stated previously, this is not an anti-vaccine document.

Vaccines have almost eradicated polio & small pox around the world. They do have a very important function.

However, you need to be informed about the different Covid vaccines before taking them. This is a duty our government should be doing as part of European Parliament Resolution 2361⁽²⁶⁾ but they are only giving one side of the story

Both the Pfizer & Moderna Covid vaccines are a new type of vaccine - mRNA - 1st of its kind – therefore, their side effects are really completely unknown as of yet.

Generally, it takes 7 to 15 years of trials before getting vaccine approval by the likes of the CDC⁽³⁵⁾

The vaccines for Covid are only given emergency approval based on a rolling review by the CDC (Centre for Disease Control) in the USA & EMA in Europe. Therefore, the Covid Vaccines do not have full regulatory approval compared with other Vaccines such as the flu vaccine.

As the vaccines are still in their trial period, this means serious side effects which can develop over time such as anaphylaxis, cancers and sterility have not been measured accurately for their impact on the population. Compared with other vaccines which followed protocol.

Why have over 200,000 HEALTH CARE STAFF in the UK refused to take the vaccine?⁽²⁷⁾

“Pfizer boss says third dose of Covid-19 vaccine ‘likely’ needed within 12 months” & **“People may also need annual shots as a booster to the vaccine”**⁽⁵⁶⁾. Why would Pfizer not state this since they have legal immunity against adverse reactions⁽²⁹⁾ and also that the EU is planning Vaccine Passports.

“THE LEVELS OF SICKNESS AFTER VACCINATION IS UNPRECEDENTED” – London Hospital Consultant stated in the British Medical Journal⁽⁴⁷⁾.

At least 8% of our DNA is composed of RNA that became incorporated into our DNA mostly as a consequence of viral infection (HERVS)

To assert there is NO possibility that mRNA vaccines might adversely interact with Human DNA is quite simply a dangerous LIE

I GOT VACCINATED BUT IF YOU GET VACCINATED MY VACCINATION WILL WORK GOODER.

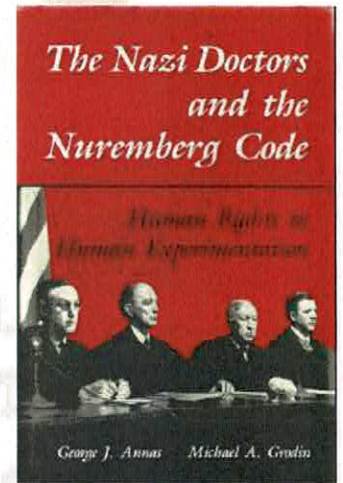

Nuremberg Code

After WWII, the 10-point Nuremberg Code was developed to prevent unwanted medical testing on people that the Nazi's did to people in the concentration camps. This formed part of the United Nations Charter which Ireland has signed up to.

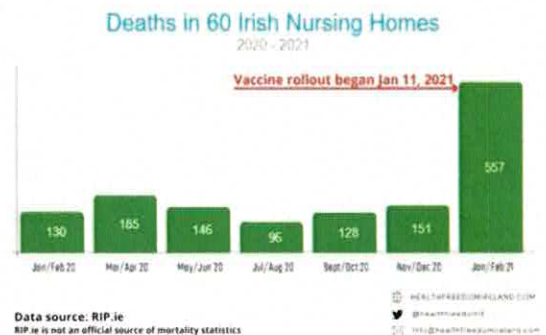

Some of the sections below are very relevant today:

- The experiment should be so conducted as to avoid all unnecessary physical and mental suffering and injury. Therefore, no experiment if there is a chance of death / disability
- Human Consent is essential
- The experiment should be so designed and based on the results of animal experimentation

There has been Covid vaccine related deaths in Ireland in nursing homes & a young doctor in Wexford Hospital.

Is it Covid or the vaccines causing the large increase in nursing home deaths in January 2021?

Bodily integrity

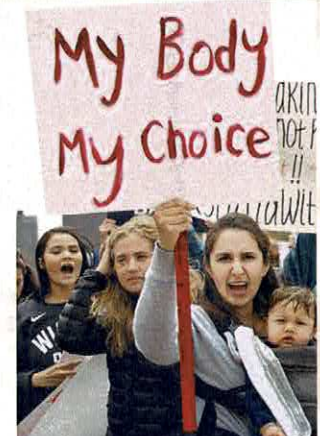

You have a right not to have your body or person unjustifiably interfered with. The new mRNA vaccines will alter your DNA.

Under personal freedoms guaranteed under our constitution, you have the right to either take or refuse to take the vaccine.

Would people consent to taking a **trial vaccine** if they were not being bombarded with fear and propaganda by the Irish media & being coerced by our government into taking the vaccine?

Where have all the **"MY BODY-MY CHOICE"** protestors gone from the Abortion Referendum?

Vaccine Passport Required to Travel

Current plans being developed by the European Commission which have just introduced in China to introduce “Digital Green Pass”, this could also be known as A Vaccination Passport. NHPET has said vaccines only offer “**LIMITED PROTECTION**” (24) – If this is the case, why do they intend limiting our freedoms of movement without a vaccination?

This completely defies our Irish constitutional right for freedom of movement & also defies the European Parliament Resolution 2361 (26) of 27th January 2021 which orders governments to inform citizens that vaccinations are NOT mandatory & that no-one should be politically or socially pressured into taking a vaccine. The “Digital Green Pass” is completely at odds with the European Union idea of freedom of movement within European Countries.

The World Health Organisation **DOES NOT** recommend the use of Vaccine Passports because “it is still not known if vaccines stop transmission” of the Covid virus. (25)

WHAT IS THE DIFFERENCE?

Currently in use in Israel

Vaccine electronic bracelet for travellers arriving from outside of Israel. Similar is happening in UAE. (Dubai & Abu Dhabi)

Normal Life still **will not be restored** after receiving vaccination. See NHS advert to the right from the UK. Leo Varadkar stated something similar on Ireland AM Virgin Media TV on 4th March.

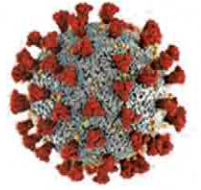

Dr. Fauci has stated the same in the USA “**due to variants**”.

Is this Health Care or MEDICAL TYRANNY?

IS OUR DEMOCRACY & FREE SPEECH UNDER THREAT?

All questions and dissent relating to Covid is being squashed by government & this is being aided by the media. Why are there not regular debates between both sides of the Covid debate being held on the RTE, Virgin Media, etc.

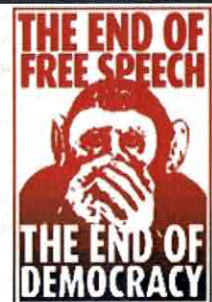

The following is a short list who have been blacklisted or lost their jobs for speaking out against the Irish Government's Covid approach:

- Dr. Marcus De Brun – Rush Co. Dublin
- Dr. Gerard Waters – Ceilbridge, Co. Kildare

Whose medical licence was suspended by the IMO

- Dr. Anne McCloskey – Co. Derry
- Dr. Martin Feely – Former Clinical Director of the Dublin Midlands Hospital Group – made step down from HSE. Has recently said **“comparing Sweden to Ireland, lockdowns look to be a mistake”**⁽⁵¹⁾

- Dr. PJ McConville – Cavan Town
- Prof. Dolores Cahill - UCD
- Una McGurk (Barrister) – lost her position on government International Protection Appeals Tribunal (IPAT)
- Martin Byrne (Human Rights Barrister)

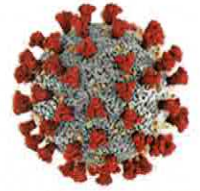

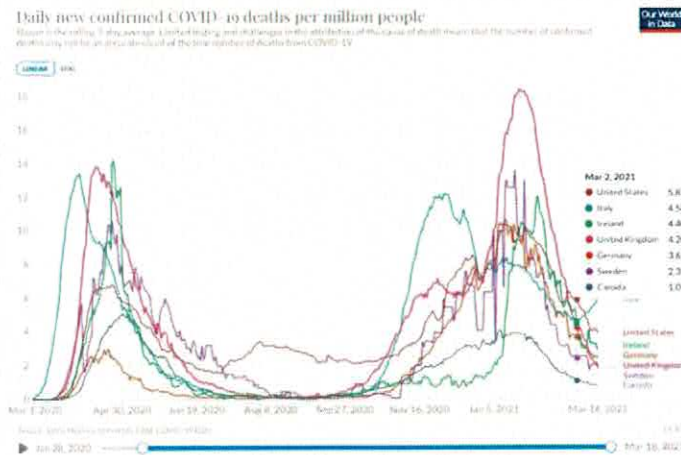

All the large tech companies are also censoring free speech where people speak out against Covid such as Facebook, LinkedIn, Twitter, YouTube, etc

PEOPLE OF IRELAND, IT IS TIME TO WAKE UP & STAND UP TO SAVE OUR COUNTRY, OUR DEMOCRACY & PROTECT OUR CHILDREN'S FUTURES

Questions:

- How has China's economy open without full vaccine roll-out? Wuhan had live outdoor concerts in August 2020 ⁽³⁰⁾ & it was the epicentre of the breakout of the virus in November 2019?
- How does **Sweden** have “**Lower Mortality Rate Than Most of Europe in 2020, Despite No Lockdown**” ⁽³⁸⁾ and **no mask mandate** with less deaths per head of population compared with Spain & Italy since March 2020 with very strict enforced lockdowns & also currently in comparison with Ireland with very strict enforced lockdowns?

- Why are the governments of the world particularly the western world destroying their economies for a virus that has a greater than 95% recovery rate across the whole world? If our politicians were put on the PUP payment of €350 per week with no payable expenses would the lockdowns have lasted as long?
- Why do almost **ALL IRISH MEDIA** from the state broadcaster, to local radio and local newspapers all follow the government Covid mantra & not offer an alternative view or question the government strategy?
- “**PREVENTION IS ALWAYS BETTER THAN CURE**” - Why did our government not advise people to build up their immune systems using Vitamin C, Vitamin D & Zinc supplements which are the best natural methods of fighting Covid? ⁽³³⁾
- Why did our government advise people to stay indoors throughout the summer of 2020 even though Vitamin D from sunlight is one of the best natural sources of Vitamin D? ⁽³⁴⁾

Questions:

- Why does the state-owned broadcaster RTE generally **NEVER** allow for any real discussion with **BOTH SIDES of the Covid Debate?**

Their news & current affair programmes always lean towards the government approved narrative. This is called **PROPAGANDA!!**

For example, Luke O'Neill 'The Science Guy' is regularly on the likes of the Late Late Show & Primetime being interviewed & nearly always **on his own**. Claire Byrne recently had on Sam McConkey who said, without any real challenge from Claire Byrne, that there would another 3-5 years of restrictions. ⁽⁵⁴⁾ Have these academics completely lost their mind & grasp on reality?

This allows the government Covid narrative to go unchecked & statements can be made that will never challenged or asked any hard questions by Ryan Tubridy, Miriam O'Callaghan or the likes. This is the same for Virgin Media, Today FM, Newstalk, etc. The Irish media one sided coverage of Covid is perfectly captured in an article written by Dr. Alan Farrell titled "**AS A DOCTOR, RTÉ'S ONE-SIDEDNESS ASTOUNDS ME**" ⁽⁵⁵⁾

The Zorb balls would allow live gigs to return

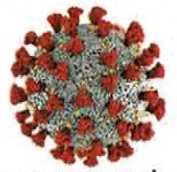

- The image to the right above is Luke O'Neill on RTE's Claire Byrne show promoting unchallenged zorbs to allow people to go to live music gigs. This is utter lunacy. Has Luke O'Neill & other government scientists & advisors completely lost all sense of reality?

Why as a nation are we putting up with such utter nonsense from our tax payer funded state broadcaster RTE?

Questions:

- Why have gatherings in churches, pubs, restaurants, sport events, etc been limited? Is it to prevent the spread of the virus or is to prevent people gathering & talking about how the actions of a tyrannical government that is crippling our country's future & destroying the Irish way of life
- Why does the TUI (Teachers Union of Ireland) have a motion at its congress via a leaked document proposing that "Covid-19 vaccine should be a requirement for entering & continuing physical attendance in a school"?
- Why is the USI (Union of Student of Ireland) not out protesting in the streets when its members lives & futures are being destroyed? Please consider how vocal they were during the protest for college fees, the gay marriage & abortion referendums? Similarly the Vintners & The Irish Hotels Federation. Their livelihoods are being destroyed. Why are they not more vocal in opposition to their industry being obliterated? Have they all been paid off to stay quiet?

- Why is the Irish Council of Civil Liberties & the Law Society of Ireland not making major issues of the disgraceful attack on our constitutional rights by this government?
- Does your health insurance policy provide cover to you or your loved ones if you have an adverse reaction to the vaccine & require full time care?
- Why is anyone who asks logical questions & challenges the government Covid strategy or protests automatically portrayed by the government & media as right wing extremist conspiracy theorists?
- Why on the Toy Late Late Show Christmas 2020 was there promotion for the Covid vaccine on a show that is watched by 1000's of children? This is pure government sponsored propaganda & indoctrination.
- **With over 100 of years of research no vaccine for cancer, after 40 years of research no vaccine for HIV, after decades of a flu vaccine it is still less than 65% effective – How after less than 1 year we can be sure the Covid trial vaccines will work & that they are safe?**

Questions:

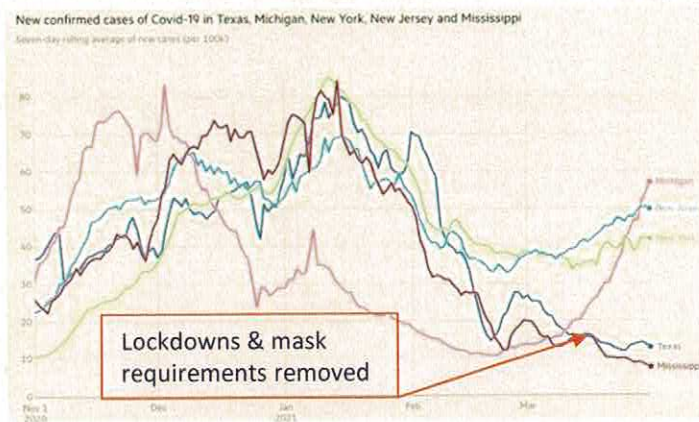

- Why has RTE not mentioned that 21 US states have re-opened with next to no restrictions & vaccine roll out still is not complete? Remember RTE coverage when the virus was at its peak, it had reports from USA almost on a daily basis.

- Why has RTE not mentioned that **Florida** with **no lockdown** has similar deaths per head of population to **California** with a very **strict lockdown**. Both states have very similar climates & Florida has a much older & more medically vulnerable population than California.

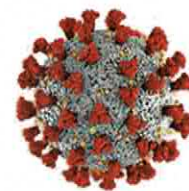

- Why has Texas⁽⁵¹⁾ & Mississippi states in USA seen a dramatic drop of up to 50% in positive Covid cases once they stopped lockdowns & mask mandates compared with New York, New Jersey & Michigan who still have lockdowns & mask mandates in place?

- Why has the Belgian Government being court ordered that all Covid-19 measures must be lifted within 30 days because the **legal basis for the measures are insufficient** ⁽⁴³⁾. This should be the same based in Irish law.
- **DOES THE IRISH GOVERNMENT REALLY HOLD THE BEST INTERESTS OF THE IRISH PEOPLE BY TAKING ADVISE FROM UNELECTED AND BOUGHT & PAID FOR NHPET ADVISORS?**
- **DOES THE IRISH GOVERNMENT REALLY HOLD THE BEST INTERESTS OF THE IRISH PEOPLE BY CONTINUING THIS LOCKDOWN, DESTROYING OUR ECONOMY, CAUSING UNTOLD SOCIETAL DAMAGE & ANXIETY AND TAKING AWAY OUR CHILDREN'S CHANCE OF A BRIGHT FUTURE?**

PEOPLE OF IRELAND – IT IS YOUR DUTY AS A CITIZEN OF THIS NATION TO START ASKING OUR LOCAL POLITICIANS VERY HARD QUESTIONS

There are only a handful of national politicians asking serious questions about lockdowns & challenging the government's Covid Strategy for a prolonged period such as TD's Michael McNamara of Clare & Mattie McGrath of Tipperary and Senator Ronan Mullen.

There has been a slight change of late March 2021 with FF's Joe Flaherty of Longford & Marc McSharry of Sligo writing to Taoiseach & telling him the nation's mood has changed. Is it too little too late?

The bulk of the rest of our politicians have said next to nothing and have not challenged the government mantra. But why would they when they have received a **recent pay rise** while 350,000 people are forced out of work on the PUP payments? **A TD's basic annual salary is now over €100,000**

⁽⁵⁰⁾ Are we really "ALL IN THIS TOGETHER" equally?

In fact, some politicians are pushing for further lockdowns & travel restrictions implemented especially **SINN FEIN & THE SOCIAL DEMOCRATS** who are supposed to be the **GOVERNMENT OPPOSITION?** – Or are they **CONTROLLED OPPOSITION** when it comes to the government's Covid strategy?

PEOPLE OF IRELAND

791 Ireland has endured the longest lockdown in Europe (Reuters)

Russia, Poland, Norway, Macedonia, Hungary, Greece and Poland never closed workplaces.

But remember, this **power of the people on top** depends on the **obedience of the people below**. When people stop obeying, they have no power.

— Howard Zinn

Civil disobedience becomes a sacred duty when the state becomes lawless or corrupt.

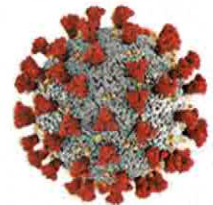

— Mahatma Gandhi

THE IRISH PEOPLE ARE ENDURING THE LONGEST COMBINED LOCKDOWN DAYS IN EUROPE THAN OTHER EUROPEAN COUNTRIES BUT OUR NATIONAL DEBT, OUR ECONOMY, SMALL BUSINESSES AND OUR COUNTRY'S SOCIAL STRUCTURE IS BEING TOTALLY DESTROYED. ARE THE LOCKDOWNS HELPING OR DESTROYING OUR NATION?

WOULD THE BRAVE MEN ABOVE WHO FOUGHT FOR OUR INDEPENDENCE AGAINST BRITISH TYRANNY OR IRISH PEOPLE OF PREVIOUS GENERATIONS HAVE ALLOWED OUR NATION BE ECONOMICALLY & SOCIALLY DESTROYED WITH THE NEVER ENDING IRISH GOVERNMENT TYRANNICAL POLICIES SUCH AS LOCKDOWNS?

REMEMBER THE POLITICIANS ABOVE AND THEIR ALLIES HAVE DESTROYED OUR CHILDREN'S FUTURES WHILE TAKING A PAY RISE
